DATA & AI TRANSFORMATION LEADER

WORK EXPERIENCE

ABOUT ME

Data & AI Transformation Leader with 25+ years of experience managing enterprise-scale platforms, global operating models, and cross-functional organizations. Proven track record owning complex data, cloud, and AI transformation initiatives end-to-end — from strategy and operating model design to execution and measurable business outcomes. Trusted partner to C-level leaders, experienced in scaling organizations (80–120+), governing multimillion-euro portfolios, and building production AI systems.

SKILLS

- Data & AI Transformation
- Enterprise Data & Analytics Platforms
- Agentic / Multi-Agent AI Architectures
- Global Operating Models
- P&L Management & Accountability
- Technology Governance
- Portfolio Ownership
- Executive Stakeholder Engagement
- Organization Design & Team Scaling
- Business Value Realization

ENDGAME

Endgame Agency B.V.
Oct 2026 - Present,
Barcelona

AI Transformation Lead

- Diagnose clients' true AI-adoption maturity against leadership's self-assessment, translating executive ambition into a sequenced, fundable transformation roadmap.
- Partner with ENDGAME engineers to land defensible first-use-case wins end-to-end, then build client capability through coaching, operating rhythms and playbooks.

EPAM SYSTEMS

DSM-FIRMENICH
Apr 2026 - Sep 2026

Principal Delivery Manager

- Owned end-to-end delivery of a 5-year, ~€45M strategic engagement (~137 FTE peak) across Data & AI, Science Innovation & Labs, and Product platforms.
- Architected the engagement as AI-native from inception, driving AI-SDLC/AI Ops adoption and the AI tooling architecture through the client's Architecture Board.

EPAM SYSTEMS

DANONE
Feb 2025 - Mar 2026

Program Manager - Data and Analytics

- Owned the enterprise-wide programme industrializing delivery of 100+ high-value data products on Danone's Databricks Lakehouse across APAC/EMEA business units.
- Moved Data & Analytics to a pay-per-use, use-case-led operating model, materially cutting TCO while increasing investment accountability.

EPAM SYSTEMS

SONEPAR
Dec 2020 - Jan 2025

Data Platform Lead - Acting Head of Data & AI

- Reporting to Sonepar's VP of Data & AI, owned delivery and evolution of the global data platform across 20+ countries (80 FTEs, €15M budget).
- Launched a data monetization programme creating a new €10M revenue stream, and AI-driven churn detection products (~5% churn reduction).

EPAM SYSTEMS

ACCELYA
Jan 2019 - Nov 2020

Delivery Manager - Platform Modernisation

- Led incremental modernization of BSPlink, IATA's global settlement platform, avoiding a high-risk big-bang migration.
- Reduced delivery and operational risk for a mission-critical financial system through phased rollout.

CERTIFICATIONS

Claude Certified Architect

WORK EXPERIENCE (CONT.)

EPAM SYSTEMS

PRIVALIA

Oct 2017 - Dec 2018

● Delivery Manager - Digital Commerce Platform

- Led transformation of Privalia's commerce platform, enabling marketplace capabilities and improved UX, contributing to a ~25% conversion rate increase.
- Coordinated 120+ engineers across multiple hubs, partnering with the CTO and CPO.

DMI INC.

ART BASEL

Oct 2015 - Sep 2017

● Head of Project Management

- Led delivery of a multi-channel digital engagement ecosystem connecting artists, galleries and visitors across physical and digital touchpoints.
- Headed the project management practice (25 FTEs), coaching PMs and Delivery Leads in delivery and agile leadership.

THOMSON

REUTERS

IP & LIFE SCIENCES

May 2014 - Oct 2015

● Technology Program Manager

- Led a \$5M technology programme portfolio, driving roadmap definition, delivery governance and financial control with Product and senior stakeholders.

CIRSA

INTERACTIVE

Sep 2002 - May 2014

● Software Engineer → Project Manager

- Advanced from engineering to project leadership, delivering international strategic programs supporting CIRSA's global growth.
- Launched an Internet Instant Lottery platform in South Korea, integrating 20 halls and 500 terminals.

ASPENTECH

Aug 1999 - Jun 2001

● Software Engineer

- Development and customization of AspenTech Manufacturing Execution System (MES) deployed at Novartis, Alcon and Lucta.

EDUCATION

Master in Project Management

La Salle Business School (2012) — Best in Class

MSc Computer Engineering

Universitat Politècnica de Catalunya (1995-2001)

PERSONAL RESEARCH

ProspectAI – Agentic AI Investment Platform

github.com/moisesprat/ProspectAI · prospect-ai.moisesprat.dev

- Multi-agent CrewAI pipeline simulating investment-firm research and portfolio-construction processes; open-source on PyPI, prompt caching cut cost/run ~60%.

RoadmapSnap – AI-Powered PMO

roadmapsnap.moisesprat.dev

- AI-powered PMO governance platform acting as an intelligence layer above execution tools — dependency mapping and AI-driven risk insights for PMO leaders.

LEADERSHIP ATTRIBUTES

4x IRONMAN Finisher · 12 Marathons · PB 3:23:05

Evidence of resilience, discipline, and a sustained high-performance mindset — qualities directly transferable to leadership roles.
